

REQUEST TO AMEND PART B OF ANNEX V
to Commission Implementing Regulation (EU) 2021/1165 authorising certain products and substances for use in organic production and establishing their lists;

NON-ORGANIC AGRICULTURAL INGREDIENTS TO BE USED FOR THE PRODUCTION OF PROCESSED ORGANIC FOOD
referred to in point (b) of Article 24 (2) of Regulation (EU) 2018/848

1. General information on the request

Nature of the request	<input type="checkbox"/> Inclusion; <input type="checkbox"/> Deletion; <input type="checkbox"/> Change of conditions
Reasons for the inclusion, deletion or change of condition	
Request introduced by [Member State (s)]	
Contact e-mail (s):	
Dossier made publicly available, subject to Union and national legislation on data protection: <input type="checkbox"/>	
Date	

2. Description of the ingredient in question

Legal name:
Customary name:
Descriptive name:
Latin name:
Other names:
CN code/CN name:
Chemical name(s) /CAS code (Chemical Abstracts Systematic Names):
Intended use / historic use/ traditional use / type of products (processed organic food) of which the requested ingredient is necessary:
Technology used for the production of this specific ingredient:

3. Legal status

Status of the ingredient in the EU or national (MS or third country) legislation
Previous national authorisations for use of this ingredient in organic production as non-organic agricultural ingredient in accordance with Art. 25 of Regulation (EU) 2018/848 (Commission reference, INGR-.../20..; start date, expiry date, renewals)

4. Aspects related to the relevance of the request

Description of the specific qualitative needs/ quality required for use in processed organic food
Description of the specific production methods of such ingredient
If the request is motivated by insufficient qualitative needs, while the ingredient is available in organic form, why this specific quality is needed for production of a particular product?
Description of the specific quantitative needs for the operator.

If the request is motivated by insufficient **quantitative needs**, while the ingredient is available in a certain quantity in organic form, how can this gap in quantitative needs be solved in the coming years? (with the view to insert possible specific conditions in the list and to remove the ingredient in the future from the list).

Stakeholders' consultation in dossier preparation

5. Consistency with objectives and principles of organic production

Criteria	Reg. 2018/848	Fulfilled Y/N	Detailed explanation
Is it an agricultural ingredient?	Art. 7(a) and Art. 24.2(b)		
Aim at producing a wide variety of high-quality food and other agricultural and aquaculture products that respond to consumers' demand	Art. 5(d)		
not harm the environment, human health, plant health or animal health and welfare	Art. 5(d)		
Main technological and/or sensory functions	Art. 7(b)		
Essential technological need or for particular nutritional purposes	Art. 7(b)		
The substances and processing methods do not mislead regarding the true nature of the product	Art. 7(c)		
Not containing or consisting of engineered nanomaterials	Art. 7(e)		
No use of ionising radiation	Art. 9(4)		
Not a GMO and not produced from or by GMOs	Art. 11		
Alternative authorised agricultural ingredients are not available	Art. 24(4)(a)		
Without having recourse to them, it would be impossible to produce or preserve the food or to fulfil given dietary requirements provided for on the basis of the European legislation	Art. 24(4)(b)		
The non organic agricultural ingredient is to be found in nature and may only have undergone mechanical, physical, biological, enzymatic or microbial processes, except in cases where products or substances from such sources are not available in sufficient quantities or qualities	Art. 24(4)(c)		
The organic agricultural ingredient is not available in sufficient quantity	Art. 24(4)(d)		
Availability of such ingredients in organic form remains insufficient to meet the qualitative and quantitative needs of the operator."	Article 25.5
